

Digital Mailing System DM800™ Series

Engineered For Effective Mail Processing

The DM800™ Mailing System Delivers New Levels Of Productivity And Durability!

The DM800™ Series Digital Mailing Systems Combine Solid Reliability With IntelliLink™ Technology

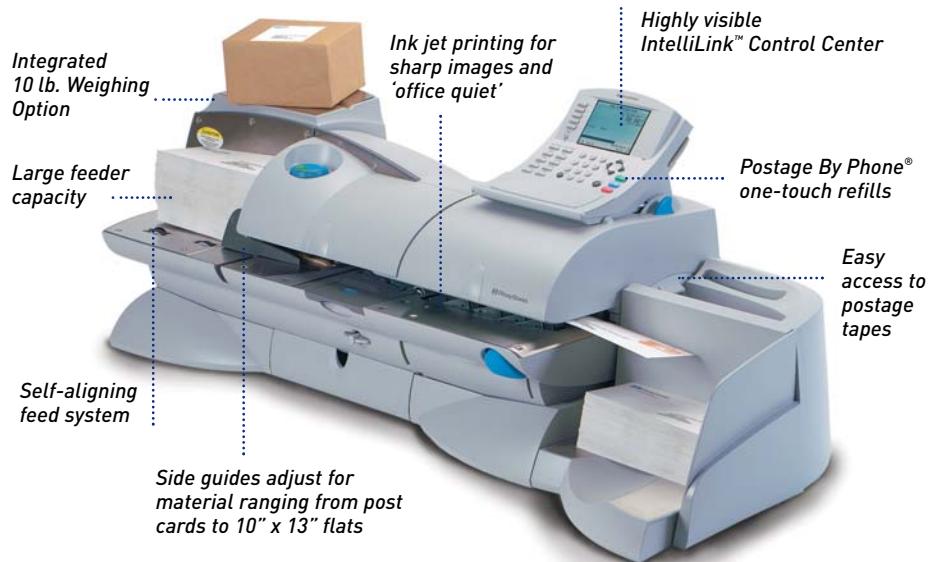

Mail is a critical communications tool for retaining your hard-earned customers, and a proven way to acquire new ones. It also carries your business's cash flow. That's why we've developed an entirely new family of highly productive and durable mailing systems – the Pitney Bowes DM Series™.

The DM800™ Series IntelliLink® Technology Makes Mailing Easier.

Our cutting-edge IntelliLink® Technology is the gateway to new levels of productivity and makes the DM800™ System easier to use and efficient. Plus, you can gain access to a suite of services that include postal rates updates and software upgrades. This ensures that your system keeps current and operates at maximum efficiency.

More Rugged And Productive

- **Streamlined High Speed Processing**
 - The DM800™ System feeds, seals, imprints postage and stacks mail at up to 210 pieces per minute. Get big jobs done quickly.
- **Versatile Feeding**
 - Automatically feed a wide range of material of varying thickness from postcards to 10" x 13" flats. This reduces the need for sorting and boosts productivity.
- **Secure Sealing**
 - a pump fed system ensures a tip-to-tip seal every time. This protects envelope contents from damage or loss.
- **Perfect For Any Environment**
 - Compact and stylish design makes the DM800™ System perfect in a dedicated mail center or an office setting.
- **Built To Last**
 - Advanced engineering has produced a machine with more capabilities but fewer moving parts.
- **Small Footprint**
 - This system brings you productivity and efficiency in a small footprint.

Accounting Functionality To Match Mailing Productivity

- **Flexibility To Meet Your Needs**
 - The DM800™ System can track expenses by account or job, manage budgets, or even transfer information to your PC.
- **Integrated Keyboard Saves Steps**
 - Manage all accounting and report selection at the Control Center to simplify data entry and increase productivity.
- **Accounting Options**
 - 100 and 300 department accounting is available as well as the Budget Manager solution for more extensive accounting and reporting applications.

Select Options For Greater Productivity

- **Weighing & Rating**
 - Configure the best system for your applications by choosing from optional electronic weighing platforms.
- **Differential Weighing**
 - Allows you to process mixed weight mail pieces and parcels quickly using the weighing platform.
- **Power Stacker**
 - Maximizes mail piece throughput, and frees up the operator from emptying the stacker frequently.

Standard Operating Features

- USPS Domestic/International Rating
- Auto-Dating
- Multiple Tapes (1-99)
- Self-Adhesive Roll Tape
- Seal Only And No Seal Modes
- Job Presets (10)
- Adjustable Sealer Wetness

Specifications DM800i™ Mailing Machine

Size (With Drop Stacker):
48" (1219mm) L x 19" (482mm) D x 18.5" (470mm) H

Size (With Power Stacker):
54" (1372mm) L x 19" (482mm) D x 18.5" (470mm) H

Weight: 78 lbs. (35.4 kg)

Electrical: 100-240 Vac, 50/60Hz, 5.0A (Single Outlet)

Speed: Up to 210 letters per minute

Media Sizes: Min.: 3.5" (89mm) x 5" (127mm), Max.: 10" (254mm) x 13" (330mm)

Thickness: Min.: .007 (.2mm), Max.: 5/8" (16mm)

Flap Depth: Min.: 1" (25mm), Max.: 3" (78mm)

Approvals: UL approved, FCC compliant, ICES-003 compliant, ENERGY STAR® compliant

Postal Compliance: Digital IBIP

Weighing: 10 lb., 15 lb., 30 lb, 70 lb. or 149 lb. 5 kg, 7 kg, 12 kg, or 35 kg

Connectivity Requirements

- Connects to a standard analog phone line.
- Supplied installation kit includes phone line splitter and six foot phone cord.
- IntelliLink™ Control Center detaches easily.
